

1st June 2020

Dear Parents/Carers,

I hope that everyone is well and staying safe. For those of you who are at home here is some home learning for this week.

Remember, do as much or as little home learning as you can. Everyone's circumstances are different at home and juggling children and work is not easy! These are just ideas to help and to give you a focus covering the things we would have done in school. If you do something every day, no matter how small it will help.

This week we are going to be recapping much of the learning that we have done so far and thinking about how things have changed whilst we have been away from school.

Activities to have a go at this week:

English

- Test yourself on all phase 2-5 phonemes (work sheet in this week's folder.) Go over and practice the ones that you are less sure of. Watch Alphablocks and play games on Phonics Play.
- Oxford Owl have added lots of free books, including many of those we use in school to their free library for a temporary period. I have recently emailed you a link and login details for this.
- Watch 'While we Can't hug' <https://www.youtube.com/watch?v=2PnnFrPaRgY> on you tube and talk about why we are social distancing at school, when out and about and at home. At school we will be trying some of the things Hedgehog and Tortoise do for their friend, e.g. write a letter, paint a picture, make a wave. Maybe those of you at home would like to do the same and send them in via homelearning.
- Practice spelling all Phase 4 words (list and game in this week's folder and activities on Education City.)

Maths:

This week in **Maths** we are revisiting number to 100.

- Practice counting forward to and back from 100.
- Play board games with number to 100.

- Watch the BBC bite size video, practise making amounts using tens and ones and complete the quiz
<https://www.bbc.co.uk/bitesize/topics/z8sfr82/articles/zw4g2nb>
- Play the exchange game (video on school you tube channel) with number to 100.
- Try the number to 100 activities on Education City.
- Recap all number bonds to 20 (there are lots of activities in the homework folder on Education City.)

Recap Other activities to try this week

Science:

- Watch the videos on 'How to wash your hands.' Create your own poster about when and how to wash your hands.
- Explore handprints – use paint, glitter, in dough, flour, mud and then practice washing your hands when you have finished.
<https://www.youtube.com/watch?v=S9VJeIWLnEg>
<https://www.youtube.com/watch?v=LQ24EfM7sEw>

Computing:

- Have a go at the computing activities on Education City

This Week's Challenge:

- Create a poster – 'What makes a good friend'. For example,

Good luck, keep sending in your work to homelearning@new-swann.leics.sch.uk if you want to see it on the face book page or Year1@new-swann.leics.sch.uk if you just want to show me.

If you have any questions you can email me at Year1@new-swann.leics.sch.uk

Missing you all and hopefully see you soon,

Mrs. Mitchell

A GOOD Friend is someone who...

**A Good Friend
is someone like you!**
