

Week Beginning Monday 8th June

Hello all, how are you? I hope you are all well.

In this week's work folder you will find new activities. I have put several maths activities in for Tuesday and Wednesday. You only need to choose ONE of these. I have also popped in a Year 4 revision booklet, a year 5 revision booklet based on Addition and Subtraction and a Year 6 Challenge - Escape Room. Pick the maths activity that would benefit you most. If you find maths challenging have a look at the Year 4 revision work if you feel confident in maths have a look at the Year 6 Escape Room. You will also see that I have included an arithmetic test from year 4, year 5 and year 6, again please choose the one relevant to you or challenge yourself if you feel brave!!

I have added new chapters from our guided reading book 'Cosmic' and the VIPERS questions that go with it. If you haven't yet read the chapters from last week, go back to last week's folder and read them first otherwise the story won't make sense.

Like last week I am happy to print out packs of work if you don't have a printer at home. However because I have done several different packs for English I can only print limited amounts.

Therefore if you ring school before lunch time and let the office know which maths activities you would like in your pack (i.e Year 4, Year 5 or Year 6) then I will sort them out for you. This can then be picked up from school between 3.30 - 4.30pm.

Task List:

Literacy

Over the week complete activity 3 and 4

Maths

Monday	Arithmetic Test - Year 4, Year 5 or Year 6
Tuesday	Year 4 - Revision Pack
Wednesday	Year 5 - Addition and Subtraction revision pack Year 6 - Escape Room <i>You choose the activity</i>
Thursday	The Mystery of the Missing Pirate Treasure
Friday	Bitesize challenge of the week - online problem solving

Topic:

See Powerpoint for this week, complete activities 3 and activities 4/5/6

Science:

Properties of Materials Escape Room

Guided Reading:

Read chapters 6-10

Complete Vipers questions for:

Chapter 6 My Planet Panda Pop

Chapter 7 and 8 I am on Hold and Fathers have children

Chapter 9 and 10 You'll like it when you get there and Lucky Winners

ICT:

Look at instructions for SketchUp (if you are unable to download this don't worry)

SketchUp works best on a desktop or a laptop. This will need to be downloaded and it is free but you must ask your parents first. I have included 3 YouTube videos that explain how to use it. This week just have a play with it and attempt to build a simple house.
